MANCHESTER
Street and Householders' Directory

The street directory gives the location of each street and shows what other streets or places run from or across it. The house numbers are given in the left and right hand columns with the names of heads of families and persons in business, in the order of location.

Houses without numbers are indicated by a — and the dash is also used opposite connecting streets to indicate whether such streets begin or end on the left or right side.

Street and Householders' Directory

The street directory gives the location of each street and shows what other streets or places run from or across it. The house numbers are given in the left and right hand columns with the names of heads of families and persons in business, in the order of location.

Houses without numbers are indicated by a — and the dash is also used opposite connecting streets to indicate whether such streets begin or end on the left or right side.

More than four-fifths of the money expended for advertising yearly is wasted, as the literature is thrown in the waste basket or used for kindling purposes within twenty-four hours.

WITH THE

DIRECTORY

IT IS NOT SO

The Directory is a book of reference and contains a file of advertisements, indexed by the classified headings, which is at hand when your goods are needed.

Every progressive business man considers this a first class investment, the cost being low, considering the length of time the book is in use.
